

Mat 02 — Environmental Product Declarations

Technical detail of the EPD credit and ISINAC contribution · BREEAM New Construction
Version 7 (SD6073, pp 286-288)

Technical document for architects, specifiers and BREEAM Assessors · Language: English (EN) · 22/06/2026

1. Aim of the credit

SD6073 page 286 quote: *"To encourage availability of robust and comparable data on the impacts of construction products through the provision of environmental product declarations (EPD)."*

2. Credit available

Maximum 1 credit. Minimum standards: none.

Single criterion (SD6073 criterion 1): "Specify construction products with EPDs that achieve a total EPD points score of at least 20."

3. Points by EPD type (Table 70)

Type of EPD	Points per EPD
EPD applicable to more than one product and more than one manufacturer	0.5
EPD applicable to more than one product and one manufacturer	0.75
EPD applicable to one specific product and one manufacturer (ISINAC)	1.5

The ISINAC EPD (EPD-IES-0033394:001) is single-product / single-manufacturer: it contributes 1.5 points, the maximum value in Table 70. The 4-point cap is NOT contributed by ISINAC: it is the maximum for the whole material category, shared with every plastic, paint and bituminous product in the building.

4. Material categories (Table 71)

Cat.	Material
1	Timber or timber-based products
2	Concrete or cementitious
3	Metal
4	Stone or aggregate
5	Clay-based
6	Gypsum
7	Glass

Le informamos, respecto de los datos personales que nos ha facilitado, de lo siguiente: Responsable del Tratamiento: Sus datos serán tratados por ISINAC ACOUSTIC WORLD S.L.U., con CIF ESB27853381. Finalidad y Base Jurídica: La finalidad del tratamiento de sus datos es la elaboración de presupuestos para productos y/o servicios y, en su caso, la facturación de estos. Al solicitar un presupuesto, usted autoriza el tratamiento de sus datos para los fines descritos, ya que es necesario para la elaboración de dicho presupuesto. Plazo de Conservación: Sus datos se conservarán mientras la relación comercial esté vigente o, en su caso, durante el período legalmente exigido. Destinatarios: Sus datos no serán cedidos a terceros, salvo obligación legal. Derechos: Puede ejercer sus derechos de acceso, rectificación, supresión, oposición, limitación del tratamiento y/o portabilidad, o solicitar información adicional sobre el tratamiento de sus datos, escribiendo a la siguiente dirección e incluyendo una copia de un documento que acredite su identidad: Avda. Ramón Nieto, 125, bajo-local 1, 36205 - Vigo (Pontevedra), España, o por correo electrónico a info@isinac.com. Información Adicional: Puede consultar información adicional y detallada sobre la protección de datos en www.isinac.com/politica-de-privacidad/.

Cat.	Material
8	Plastic, polymer, resin, paint, chemicals and bituminous (ISINAC)
9	Animal fibre or skin, cellulose fibre
10	Other

ISINAC products fall mainly under category 8.

5. EPD validity requirements

- EPD must not be expired at the time of product specification.
- EPD issued or registered by an ISO 14025-compliant program operator.
- For products covered by the Construction Products Regulation (CPR), PCRs based on EN 15804.

6. ISINAC documentary status

EPD EN 15804+A2 / ISO 14025 published: registration EPD-IES-0033394:001, The International EPD System, 06/08/2026, valid until 05/08/2031. Public record: <https://www.environdec.com/library/epd33394>

Once closed, ISINAC will provide the BREEAM project with: copy of the current EPD certificate, program operator identifier, material category (category 8), EPD validity (date range), and list of products covered.

7. How ISINAC counts in the credit calculation

ISINAC ALONE does not obtain the Mat 02 credit — the ISINAC EPD contributes up to 4 points (cap per material category) to the global building score. The building needs EPDs from OTHER categories (timber, gypsum, metal, etc.) to reach the 20 points threshold.

8. Documentary evidence ISINAC provides at post-construction

- Copy of the valid EPD certificate at design stage.
- Post-construction confirmation that the installed product matches the one in the EPD: delivery tickets, invoices, on-site photos, manufacturer declaration.
